Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 March 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

This office action is in response to the amendment filed on March 18, 2005.

Claims 11-25 and 30 are pending in this application.

Withdrawn Rejections/Objections:

Applicant is notified that any outstanding rejection/objection that is not expressly maintained in this office action has been withdrawn or rendered moot in view of applicant's amendments and/or remarks.

The following rejections are maintained:

Claims 11-25 and 30 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11, 14 and 20-40 of copending Application No. 10/365,719 (Pub No. 2004/0044002). The reasons provided in the previous office action are incorporated here by reference.

It is acknowledged that 'applicants stand ready to file a terminal disclaimer in compliance with 37 CFR 1.321(c) upon notice that the claims are otherwise in condition for allowance'.

The following rejection is necessitated by the amendment:

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1624

Claims 11-16, 21-25 and 30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The definition of R^4 has been amended by introducing "H" (hydrogen), for which applicant does not provide any support.

Applicant relies on 'species of compound no. 18 disclosed in the specification page 18' as support for the above amendment to the definition of R^4 . However, the instantly claimed compounds are not sufficiently described within the genus of formula recited in claim 11. The myriad of permutations that are present within the genus of formula as instantly recited in claim 11, do not include all of the permutations possible in addition to the substituents already disclosed for R^4 . Therefore, inclusion of "H" in the definition of R^4 results in species, which were not contemplated or made. Compound 18 disclosed in the specification has hydrogen in the position analogous to R^4 group, which in itself is not sufficient for including H in the definition of R^4 for the entire genus. Further, the term " R^4 " appears in substituent groups which are defined for both rings Q_1 and Q_2 (see the substituent list for Q_1 , last paragraph on page 3 and the structures recited in the definition of A in page 4) and therefore, results in subgenera and multitude of species which are not supported by the original disclosure. "Disclosure of Two species in prior application did not provide written description to generic claims added in CIP", see *Tronzo v. Biomet, Inc.*, 156 F.3d 1154, 47 USPQ2d 1829 (Fed. Cir. 1998).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
